

REMARKS

A further review of the claims of the subject Continuation Application indicated that minor amendments to claims 16 and 17 were advisable to place them in better condition, which has been accomplished by the foregoing amendments to those claims. The amendments are not made to distinguish over prior art.

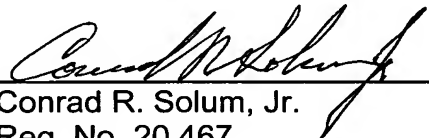

Further, Applicant has added new claims 24-37 which are of a different scope than original claims 1-23 for more adequately protecting the scope of the present invention.

A favorable action on the merits on pending claims 1-37 is respectfully requested.

Respectfully submitted,

Fulbright & Jaworski L.L.P.
